Table of Contents

LECTURES

JUSTIFYING THE REINSTALLATION AND UPGRADING OF PROBLEM ANSI PUMPS AT AN OPERATING CHEMICAL PLANT .................................................. 3
   Joseph F. Dolniak

DESIGN AND IMPLEMENTATION OF A MECHANICAL SEAL IMPROVEMENT PROGRAM AT AN OIL REFINERY .......................................................... 11
   Johnny J. Pellin and William J. McCollough

DUAL GAS SEALING TECHNOLOGY FOR PUMPS .................................................. 19
   William V. Adams, Randy R. Dingman, and Joseph C. Parker

DESIGN AND TESTING OF DUAL SEAL SERIES ARRANGEMENTS FOR PRESSURIZED BARRIER FLUID .......................................................... 31
   Kenneth E. Lavelle, William E. Key, and Al C. Holman

MODERN MANUFACTURING OF ADVANCED IMPELLER AND DIFFUSER VANE PROFILES .......................................................... 37
   Helmut Riegger and Alexander Nicklas

UNDERSTAND PROGRESSING CAVEY PUMPS CHARACTERISTICS AND AVOID ABRASIVE WEAR .......................................................... 47
   Gerhard Vetter and Wolfgang Wirth

EFFECT OF MECHANICAL UNBALANCE ON VIBRATIONS, FORCES AND RELIABILITY OF A SINGLE-STAGE CENTRIFUGAL PUMP .......................................................... 61
   Lev Nelik and Charles Jackson

MAGNETIC BEARINGS AS AN IMPELLER FORCE MEASUREMENT TECHNIQUE .......................................................... 69
   Adiel Guinzburg and Frederic W. Buse

DRY RUNNING TESTS UTILIZING SILICON CARBIDE BEARINGS AND POLYMER LUBRICATING STRIPS WITH CONDUCTIVE AND NONCONDUCTIVE CONTAINMENT SHELLS IN AN ANSI MAGNETIC DRIVE PUMP .......................................................... 77
   Anthony E. Stavale

DRY RUNNING BELLows TYPE TANDEM SEALS FOR VOC SERVICES .......................................................... 83
   Reid W. Engstrom, David P. Casucci, and Michael Kotlyar

TESTING AND FIELD PERFORMANCE OF A HIGH DUTY NGL PIPELINE SEAL .......................................................... 89
   Kenneth E. Lavelle and William J. Woods

EXPERIMENTAL EVALUATION OF HIGH ENERGY PUMP IMPROVEMENTS INCLUDING EFFECTS OF UPSTREAM PIPING .......................................................... 97
   Donald P. Sloteman, Timothy L. Woirting, Patrick March, Dan McBee, and Larry Moody

SPECIAL PAPERS

JUDGE THE PUMP HYDRAULIC DESIGN THROUGH NUMBERS BEFORE YOU BUY .......................................................... 113
   Hans Spring

A NAME WELL CHOSEN .......................................................... 121
   Igor J. Karassik
**TUTORIAL SESSIONS**

- **THE ROAD TO RELIABLE PUMPS** ......................................................... 125  
  *Perry C. Monroe, Jr.*

- **CENTRIFUGAL PUMPS INSPECTION AND TESTING** .................................. 143  
  *Vinod P. Patel and James R. Bro*

- **CENTRIFUGAL PUMP APPLICATION—KEY HYDRAULIC AND PERFORMANCE CRITERIA** ........ 151  
  *Stan T. Shiels*

- **SHAFT ALIGNMENT** .......................................................... 163  
  *Jack Essinger*

- **MONITORING REPAIRS TO YOUR PUMPS** ........................................... 189  
  *William E. (Ed) Nelson*

- **DIAPHRAGM DEVELOPMENT TRENDS FOR SAFE LEAKFREE RECIPROCATING PROCESS PUMPS** 207  
  *Gerhard Vetter, Eberhard Schlücker, Waldemar Horn, and William E. Neis*

- **THE EFFECTS OF VALVE DYNAMICS ON RECIPROCATING PUMP RELIABILITY** .......... 221  
  *Stephen M. Price, Donald R. Smith, and James D. Tison*

**PANEL SESSION** .......................................................... 231

**DISCUSSION GROUPS AND LEADERS** ................................................. 237

**SHORT COURSE SPEAKERS** .......................................................... 267

**ADVISORY COMMITTEE** .......................................................... 283

**PROFESSIONAL STAFF** .......................................................... 289

**TURBOMACHINERY LABORATORY** .................................................... 293
