# Table of Contents

**LECTURES**

MECHANICAL SEAL RELIABILITY IMPROVED WITH API PIPING PLAN 23 ........................................... 1  
V. Ray Dodd, Thomas E. Hinkel

PRESSURE RATINGS OF MECHANICAL SEALS ............................................................................. 7  
Gordon S. Buck

REPLACEMENT OF THE BOILER FEEDPUMPS DURING THE RETROFIT OF THE 500 MW UNITS AT A GERMAN POWER STATION ................................................................. 15  
Cord H. Laux, Uwe Burchhardt, and Uwe Kirstein

REBUILDING PROCESS PUMPS TO COMPLY WITH FUGITIVE EMISSIONS STANDARDS .............. 25  
Stephen C. Rossi and John B. Cary

DEVELOPMENT AND FIELD TEST RESULTS OF HIGH PERFORMANCE SEALS FOR AN NGL INJECTION PUMP ................................................................. 35  
Thomas D. Maceyka, Peter Kay, and David R. Leet

DESIGN AND APPLICATION OF DUAL GAS SEALS FOR SMALL BORE SEAL CHAMBERS ............ 43  
Alan O’Brien and James R. Wasser

CONTROL VALVE INDUCED PIPELINE VIBRATIONS IN A PAPER PULP PUMPING SYSTEM .......... 49  
Andrew L. Lewis, Fred R. Szenasi, and Daniel R. Roll

THE APPLICATION OF COMPUTER SIMULATION AND REAL-TIME MONITORING TO MINIMIZE THE PRESSURE PULSATIONS IN COMPLEX PUMPING SYSTEMS .......... 61  
Edward Graf and John F. Marchi, Jr.

TWO-PHASE FLOW PERFORMANCE OF A HEAT TRANSPORT PUMP ............................................. 69  
H. Samarasekera

TWENTY-THREE YEARS OPERATING EXPERIENCE WITH THE WORLD'S LARGEST BOILER FEEDWATER PUMP ................................................................. 75  
Frank L. Michell, Daniel H. Drew, Timothy L. Wotring, and Richard P. Koch

BONE-DRY RUNNING TESTS UTILIZING DIAMOND LIKE CARBON COATED SILICON CARBIDE BEARINGS AND POLYMER LUBRICATING STRIPS IN AN ANSI MAGNETIC DRIVE PUMP ........................................ 85  
Anthony E. Stavale

DIAMOND LIKE CARBON COATINGS–TRIBOLOGICAL POSSIBILITIES AND LIMITATIONS IN APPLICATIONS ON SINTERED SILICON CARBIDE BEARING AND SEAL FACES ............................................ 93  
Michael Fundus and Heinrich Knoch
TUTORIALS

A COMPARISON OF POSITIVE DISPLACEMENT AND CENTRIFUGAL PUMP APPLICATIONS ................. 99
John E. Purcell and Joseph A. Silvaggio, Jr.

PUMP LIFE-CYCLES AND THE INTERNET--
UTILIZING TECHNOLOGY TO IMPROVE PUMP RELIABILITY .................................................. 105
Paul Shank

PRESENT LIMITS OF OPERATION OF PRODUCT
LUBRICATED AND MAGNETIC BEARINGS IN PUMPS ................................................................. 113
Michael K. Swann, Jonathan Watkins, and Kevin R. Bornstein

OIL LUBRICATION SYSTEMS FOR PROCESS PUMPS AND RELATED EQUIPMENT ....................... 129
Vinod P. Patel and Donald G. Coppins

TUTORIAL ON SPECIAL PURPOSE PUMPS--PIROT; PROGRESSING CAVITY;
AIR OPERATED DIAPHRAGM; AND HYDRAULICALLY ACTUATED DIAPHRAGM ................................. 141
Bruno Schiavello, Thomas L. Angle, Aleksander S. Roudnev, James G. Shaw, Kent Whitmire,
Charles W. Taylor, William F. Versaw, and Daniel W. Chacchia

TROUBLESHOOTING TACTICS TO IMPROVE PUMP MEAN TIME BETWEEN REPAIRS .................. 171
John P. Joseph II and Perry C. Monroe

DISCUSSION GROUPS AND LEADERS .......................................................................................... 177

SHORT COURSES ......................................................................................................................... 197

ADVISORY COMMITTEE .............................................................................................................. 209

PROFESSIONAL STAFF ............................................................................................................... 215

TURBOMACHINERY LABORATORY .............................................................................................. 219
