## Table of Contents

**LECTURES**

A CASE HISTORY—IMPROVEMENTS TO AN EXISTING COOLING TOWER SUMP AND HORIZONTAL SPLIT CASE PUMPS .......................................................... 1
  
  Paul J. Wallen and Gregory S. Towsley

FINDING AND ELIMINATING CHRONIC PUMP FAILURES .......................................................... 9
  
  Clay Crook

HIGH PRESSURE NONCONTACTING MECHANICAL SEAL FOR API APPLICATIONS .......................... 17
  
  Gregory E. Klostermann

A CAVITATION RESISTANT HYDROSTATIC SEAL FOR HIGH PRESSURE BREAKDOWN .................. 25
  
  Warren C. Prouty, Derek S. Da Silva, and Harry Farrell

FINITE ELEMENT TRANSIENT THERMAL ANALYSIS OF AN AXIALLY SPLIT HORIZONTAL MULTISTAGE PUMP .......................................................... 35
  
  Roland Kaiser, Wolfram Lienau, and Douglas J. Peters

CASE STUDY—INCREASING THE SYSTEM FLOW IN AN EXISTING SUMP ........................................ 49
  
  D. Waylon Free, Blake P. Tullis, and James R. Bird

DEVELOPMENT OF A TWIN HYBRID NONCONTACTING GAS SEAL AND ITS APPLICATION TO PROCESS PUMPS .......................................................... 59
  
  Shifeng Wu, Christopher A. Kowalski, and Lynn E. Stafford

DOUBLE GAS SEAL WITH COPLANAR COAXIAL RAYLEIGH PAD FACES FOR PUMP SEALING APPLICATIONS .......................................................... 69
  
  Alan O. Lebeck and Gabriel Albor

GUIDELINES TO MAXIMIZE RELIABILITY AND MINIMIZE RISK IN PLANTS USING HIGH PRESSURE PROCESS DIAPHRAGM PUMPS .......................................................... 77
  
  Eberhard Schlücker, James M. Blanding, and Joseph F. Murray

DESIGN AND OPERATION OF A NONPRESSURIZED DUAL GAS SEAL IN LIGHT HYDROCARBONS ....... 101
  
  Mark Cooper and Joseph C. Parker

LOW COST RELIABILITY THROUGH OPERATOR INVOLVEMENT ................................................ 107
  
  Mark Parris and Dan Cameron

PUMP RELIABILITY AND EFFICIENCY INCREASE MAINTENANCE PROGRAM—UTILIZING HIGH PERFORMANCE THERMOPLASTICS ................................................ 115
  
  Tommy Hinkel and Matt Giffrow
