Table of Contents

LECTURES ................................................................. 1

NEW DEVELOPMENTS IN STANDBY SEALS FOR
APPLICATIONS FOR ENVIRONMENTAL SENSITIVE DUTIES .......................... 3
Jeremy M. Heatley, and Matthew Giffrow

EVOLUTION OF A MECHANICAL SEAL CONDITION MONITORING SYSTEM .......... 9
Frank Olmos

ROOT CAUSE ANALYSIS OF FIVE COSTLY CENTRIFUGAL PUMP FAILURES .............. 15
Heinz P. Bloch

CONSIDERATIONS IN HOT AND COLD ALIGNMENT AND COUplings ................... 27
Charles Jackson

EXPERIMENTAL EVALUATION OF BLADDER TYPE PULSATION
DAMPENERS FOR RECIPROCATING PUMPS .............................................. 39
Pawam J. Singh, and William K. Chaplis

IMPROVING PUMP RELIABILITY IN LIGHT HYDROCARBON
AND CONDENSATE SERVICE WITH METAL FILLED GRAPHITE WEAR PARTS ........... 49
Robert P. Komin

DESIGN OF MAGNETICALLY DRIVEN CHEMICAL PUMP TO
FIT ANSI B73.1 DIMENSIONS USING A SEMIOPEN IMPELLER ......................... 55
Frederic Buse, and C. Dean Stoughton

DESIGN, CONSTRUCTION, AND APPLICATIONS OF
MAGNETICALLY COUPLED CENTRIFUGAL PUMPS ..................................... 63
Harry Schommer, and Thomas G. Johnson

PUMP ROTOR CRITICAL SPEEDS DIAGNOSIS AND SOLUTIONS .......................... 73
Dennis G. Bowman, William D. Marscher, and Stephen R. Reid

ROTORDYNAMIC AND DRY RUNNING BEHAVIOR OF
A FULL SCALE TEST BOILER FEED PUMP .............................................. 81
Arno Frei, Johann Gulich, Guenther Eichhorn, Josef Eberl, and Thomas H. McCloskey

MAGNETICALLY DRIVEN CENTRIFUGAL PUMPS—ELIMINATING SEAL PROBLEMS IN
REFINERY AND CHEMICAL PROCESSING PLANT EQUIPMENT .......................... 93
Jared D. Mayes

ISO 5199 STANDARD ADDRESSES TODAY'S
RELIABILITY REQUIREMENTS FOR CHEMICAL PROCESS PUMPS ..................... 101
Pierre Fabeck, and R. Barry Erickson

SPECIAL PAPER ........................................................................... 117

AND WHAT OF THE FUTURE? ............................................................. 119
Igor J. Karassik

TUTORIAL SESSIONS ..................................................................... 123

VIBRATION MONITORING AND ANALYSIS OF PUMPS ................................. 125
Kevin R. Guy

A USER'S VIEW OF SEALLESS PUMPS—THEIR ECONOMICS,
RELIABILITY, AND THE ENVIRONMENT .............................................. 127
Ronald G. Eierman

SELECTION OF COATINGS FOR PUMP APPLICATIONS .............................. 135
Paul S. Gupton
