Table of Contents

LECTURES

ADVENTS IN EROSION PREDICTION OF AXIAL FLOW EXPANDERS ........................................... 1
Ben Carbonetto and Greg Hoch

ANALYSIS OF HOT SECTION FAILURES ON GAS TURBINES IN PROCESS PLANT SERVICE ................. 9
Ian Hunter, Joe Daleo, Jim Wilson, and Keith Ellison

USE OF METAL BELLOWS NONCONTACTING SEALS AND GUIDELINES FOR STEAM APPLICATIONS ......21
Lionel Young, Joel N. Burroughs, and Michael Huebner

RETROFITTING A LARGE STEAM TURBINE
WITH A MECHANICALLY CENTERED SQUEEZE FILM DAMPER ............................................... 29
Stephen L. Edney and John C. Nicholas

UNEXPECTED ROTORDYNAMIC INSTABILITY IN A “PROVEN” FCC WET GAS COMPRESSOR ............... 41
Ed Wilcox

IMPROVEMENT OF CENTRIFUGAL COMPRESSOR
RELIABILITY HANDLING HIGH PRESSURE AND HIGH DENSITY GAS ..................................... 51
Richard S. Gill, Hiroaki Osaki, Yasushi Mouri, and Yasuhiro Kawashima

METHODOLOGY OF OPEN BLADED IMPELLER RESONANCE IDENTIFICATION ......................... 61
Qian Wang, John C. Bartos, and Russell A. Houston

THE USE OF COMPUTATIONAL FLUID DYNAMICS AND SCALE MODEL
COMPONENT TESTING FOR A LARGE FCC PROTOTYPE AIR COMPRESSOR ............................... 69
Michael Kotlyar, Reid Engstrom, and Marco Giachi

SOLUTIONS TO FIELD PROBLEMS OF A GAS TURBINE-AXIAL FLOW CHEMICAL
PROCESS COMPRESSOR TRAIN BASED ON COMPUTER SIMULATION OF THE PROCESS ................ 77
Francisco Gonzalez and Meherwan P. Boyce

GAS TURBINE POWER AUGMENTATION BY FOGGING OF INLET AIR ........................................ 93
Cyrus B. Meher-Homji and Thomas R. Mee III

ROTORDYNAMIC STABILITY TESTS ON HIGH-PRESSURE RADIAL COMPRESSORS ..................... 115
Urs Baumann

REDESIGN OF LARGE STEAM TURBINES FOR INCREASED RELIABILITY .................................... 123
Malcolm E. Leader, Randal G. Rials, and Charlie R. Rutan

INFLUENCE OF OIL INJECTION METHOD ON THRUST BEARING PERFORMANCE AT LOW FLOW CONDITIONS ................................................................. 133
Christopher B. Stewart

HIGH FREQUENCY FATIGUE FAILURE IN SILENCER/
PULSATION DAMPERS FOR OIL FREE SCREW COMPRESSORS ............................................. 141
Jeff Lovelady and Pete A. Bielskus
TUTORIALS

BASICS OF OPERATION AND APPLICATION OF OIL FLOODED ROTARY SCREW COMpressors
Joseph W. Pillis

STEAM TURBINE GOVERNING SYSTEMS AND ELECTRONIC GOVERNOR RETROFIT
Joseph S. Lamerson and Jack Reed

PRACTICAL METHODS FOR FIELD PERFORMANCE TESTING CENTRIFUGAL COMPRESSORS
Ed Wilcox

HIGH TEMPERATURE COATINGS FOR INDUSTRIAL GAS TURBINE USERS
Henry Bernstein

SOURCES AND REMEDIES OF HIGH-FREQUENCY PIPING VIBRATION AND NOISE
Stephen M. Price and Donald R. Smith

FIELD PERFORMANCE TESTING OF GAS TURBINE DRIVEN COMPRESSOR SETS
Rainer Kurz, Klaus Brun, and Darvıl D. Legrand

DISCUSSION GROUPS

SHORT COURSES

ADVISORY COMMITTEE

PROFESSIONAL STAFF
