# Call for Papers

## 39th Turbomachinery Symposium

<http://turbolab.tamu.edu>

October 4-7, 2010 • George R. Brown Convention Center • Houston, Texas  
Petrochemical • Oil Refining • Oil and Gas Production • Utility • Power • Aerospace • Related Industries

ABSTRACTS for Lectures are solicited for the 39th Turbomachinery Symposium. Prospective authors should keep the following in mind when submitting abstracts:

- A Lecture is the presentation of a technical paper detailing cutting-edge, emerging turbomachinery or reciprocating compressor technology. The described technology should have been successfully field tested at least once and include field experience.
  - Lectures consist of 30-35 minutes of presentation and 10-15 minutes of questions and discussion. Authors should indicate what audience the paper would address.
  - Papers should be directed toward **users**. Papers **must** be free of commercialism.
  - References to commercial products, trade names, and manufacturing companies must be avoided.
  - Previously published works are not accepted.
  - Maximum of 500 word abstract (figures are encouraged) is due by **October 19, 2009**.
  - From the abstract review, selected authors will be invited to submit full papers for manuscript review. Those papers will be due **March 15, 2010**.
  - From the manuscript review, selected authors will be invited to present at the symposium and publish in the Turbomachinery Symposium *Proceedings*. Those final manuscripts will be due **June 7, 2010**.
- The first page of the abstract must contain **complete contact information for each author** who will participate in the proposed paper. ***This information must include: Author title (Dr, Mr, Ms, etc.); Author full name; Company name; Company mailing address; Author phone, fax, and email.***

**Email Abstracts only to:** Abstracts, 39th Turbomachinery Symposium  
[pubs@turbo-lab.tamu.edu](mailto:pubs@turbo-lab.tamu.edu)

***The acceptable file format for submission is Adobe Acrobat PDF only. File size must not exceed 500 kilobytes.*** Faxed or mailed submissions will not be accepted. **Abstract inquiries** please contact Joanne Burnett, Editor, Turbomachinery Laboratory, Texas A&M University (phone 979-571-5519, fax 979-845-1835, email [joanne@turbo-lab.tamu.edu](mailto:joanne@turbo-lab.tamu.edu)).

Abstract Due Date **October 19, 2009**

# Call for Case Studies

## 39th Turbomachinery Symposium

<http://turbolab.tamu.edu>

October 4-7, 2010 • George R. Brown Convention Center • Houston, Texas  
Petrochemical • Oil Refining • Oil and Gas Production • Utility • Power • Aerospace • Related Industries

ABSTRACTS for Case Studies are solicited from turbomachinery and reciprocating compressor end-users, manufacturers, and consultants for the 39th Turbomachinery Symposium. A Case Study is an **informal** presentation describing the successful implementation of established turbomachinery technology to solve a real-world problem. Case Studies should be written with end-users of turbomachinery in mind.

- Case Studies may be submitted, written, and presented by either end-users, manufacturers, or consultants, provided the following conditions are met: 1) The case study must describe an actual end-user problem and its resolution. 2) Involvement by the affected end-user is recommended, but is not required. 3) If the end-user is not directly involved, written permission from the affected end-user is required before or at the time of the preliminary case study review.
- Each invited case study is limited to 15 minutes to relate their experiences, with an additional five minutes for questions. Presentations consist of an abstract and about 15 slides or overhead transparencies.
- Case studies should relate concise and complete success stories/lessons learned. Stories relating the failure of others, such as manufacturers or suppliers, will not be permitted.
- References to commercial products, trade names, and manufacturing companies must be avoided.
- The first page of the abstract must contain **complete contact information for each author** who will participate.
- A short abstract (maximum of 250 words) is due by **October 19, 2009**.
- Selected authors will be invited to submit preliminary case studies for review, due **March 15, 2010**.
- From that review, selected authors will be invited to present at the symposium. Those final Case Studies will be due **July 5, 2010**. Presentations will be reproduced on a CD-ROM, available to session attendees.
- The first page of the abstract must contain **complete contact information for each author** who will participate in the proposed paper. ***This information must include: Author title (Dr, Mr, Ms, etc.); Author full name; Company name; Company mailing address; Author phone, fax, and email.***

**Email Abstracts only to:** Case Study Abstracts, 39th Turbomachinery Symposium  
[pubs@turbo-lab.tamu.edu](mailto:pubs@turbo-lab.tamu.edu)

**The acceptable file format for submission is Adobe Acrobat PDF only. File size must not exceed 500 kilobytes.** Faxed or mailed submissions will not be accepted. **Abstract inquiries** please contact Joanne Burnett, Editor, Turbomachinery Laboratory, Texas A&M University (phone 979-571-5519, fax 979-845-1835, email [joanne@turbo-lab.tamu.edu](mailto:joanne@turbo-lab.tamu.edu)).

Abstract Due Date **October 19, 2009**

# Call for Tutorial Papers

## 39th Turbomachinery Symposium

<http://turbolab.tamu.edu>

October 4-7, 2010 • George R. Brown Convention Center • Houston, Texas  
Petrochemical • Oil Refining • Oil and Gas Production • Utility • Power • Aerospace • Related Industries

ABSTRACTS for Tutorials are solicited for the 39th Turbomachinery Symposium. Prospective authors should keep the following in mind when submitting abstracts:

- A Tutorial is a mini short course/workshop. It is a teaching process.
  - Tutorials consist of 75-80 minutes of presentation and 10-15 minutes of questions and discussion, and are presented twice. Authors should indicate what audience the paper would address.
  - Papers should be directed toward **users**. Papers **must** be free of commercialism.
  - References to commercial products, trade names, and manufacturing companies must be avoided.
  - Previously published works are not accepted.
  - The first page of the abstract must contain **complete contact information for each author** who will participate in the proposed paper.
  - Maximum of 500 word abstract (figures are encouraged) is due by **October 19, 2009**.
  - From the abstract review, selected authors will be invited to present at the symposium and publish in the International Pump Users Symposium *Proceedings*. They will be asked to submit a draft of their paper for manuscript review. Those papers will be due **March 15, 2010**.
  - Invited authors will receive Advisory Committee comments from the manuscript review meeting, and final tutorials will be due **June 7, 2010**.
- 
- The first page of the abstract must contain **complete contact information for each author** who will participate in the proposed paper. ***This information must include: Author title (Dr, Mr, Ms, etc.); Author full name; Company name; Company mailing address; Author phone, fax, and email.***

**Email Abstracts only to:** Tutorial Abstracts, 39th Turbomachinery Symposium  
[pubs@turbo-lab.tamu.edu](mailto:pubs@turbo-lab.tamu.edu)

***The acceptable file format for submission is Adobe Acrobat PDF only. File size must not exceed 500 kilobytes.*** Faxed or mailed submissions will not be accepted. **Abstract inquiries** please contact Joanne Burnett, Editor, Turbomachinery Laboratory, Texas A&M University (phone 979-571-5519, fax 979-845-1835, email [joanne@turbo-lab.tamu.edu](mailto:joanne@turbo-lab.tamu.edu)).

Abstract Due Date **October 19, 2009**

## Call for Short Courses

### 39th Turbomachinery Symposium

<http://turbolab.tamu.edu>

October 4-7, 2010 • The George R. Brown Convention Center • Houston, Texas  
Petrochemical • Utility • Paper • Water/Wastewater • Slurry • Naval • Related Industries

ABSTRACTS for Short Courses are solicited for the 39th Turbomachinery Symposium. Prospective authors should keep the following in mind when submitting abstracts:

- A Short Course is a full day training session presented concurrently on the first day of symposium.
  - Short Courses run from 8:30am to 5:00pm, with a 90 minute luncheon, and two 10 minute breaks.
  - References to commercial products, trade names, and manufacturing companies must be avoided.
  - The first page of the abstract must contain **complete contact information for each author** who will participate.
  - A short abstract (maximum of 500 words) is due by **October 19, 2009**. An outline is encouraged, and authors should indicate what audience the course would address.
  - From that review, selected authors will be invited to present at the symposium. Those final Short Course Notebooks will be due **July 5, 2010**. Presentations will be reproduced in a booklet, available to session attendees.
- 
- The first page of the abstract must contain **complete contact information for each author** who will participate in the proposed paper. ***This information must include: Author title (Dr, Mr, Ms, etc.); Author full name; Company name; Company mailing address; Author phone, fax, and email.***

**Email Abstracts only to:** Short Course Abstracts, 39th Turbomachinery Symposium  
[pubs@turbo-lab.tamu.edu](mailto:pubs@turbo-lab.tamu.edu)

***The acceptable file format for submission is Adobe Acrobat PDF only. File size must not exceed 500 kilobytes.*** Faxed or mailed submissions will not be accepted. **Abstract inquiries** please contact Joanne Burnett, Editor, Turbomachinery Laboratory, Texas A&M University (phone 979-571-5519, fax 979-845-1835, email [joanne@turbo-lab.tamu.edu](mailto:joanne@turbo-lab.tamu.edu)).

Abstract Due Date **October 19, 2009**
